Education

B.S. Environmental Economics & Policy

June 2020

Oregon State University

Corvallis, OR

- Minored in Spanish and Comparative International Agriculture
- **Study Abroad:** University of Granada, Spain – Spanish Literature & Language (Fall 2019)

Leadership & Research

President

October 2019 – June 2020

LEAP (Law, Environmental Economics, & Agricultural Policy) Club

Corvallis, OR

- Develop and lead biweekly meetings focused on the intersection of environmentalism, economics, and policy.
- Connect with community members to provide club members opportunities such as career panels, site visits, and guest lectures.
- Work with department faculty to coordinate events to build and support the culture of students pursuing Applied Economics degrees.

Local Energy Policy Econometrics Research

September 2018 – June 2020

Applied Economics Department – Oregon State University

Corvallis, OR

- Collected and compiled data related to housing prices, renewable energy presence, and community demographics on a local level in Oregon.
- Ran models and regressions using Stata software to consider how the presence of local renewable energy policies can affect housing prices.
- Developed and presented research findings to department faculty, staff, and students.
- Considered the environmental justice concerns surrounding the clean energy movement.

Sustainability & Community Service Chairs

April 2019 – June 2020

Sigma Phi Epsilon Fraternity

Corvallis, OR

- Educate a group of 100+ OSU students about sustainability and ways in which they can introduce more sustainable practices into their lives.
- Provide service opportunities through various nonprofits and community groups to the members of the fraternity on a weekly basis.
- Find ways to improve sustainable operations within the physical fraternity house (60+ residents), including spearheading a new compost/waste management system.

Work Experience

Program Specialist

April 2019 – June 2020

Community Engagement & Leadership

Corvallis, OR

- Curated and led an eight-day Alternative Spring Break program of 10 OSU students to Los Angeles focused on houselessness and food insecurity.
- Connect with Corvallis based non-profits and community organizations to create, plan, and implement service projects (involving 300+ students a term); collaborations included groups such as the Greenbelt Land Trust and Corvallis Parks and Recreation.
- Develop and facilitate workshops and meetings for campus leadership organizations based on personal development and service.

Nature Educator

June – August 2021

Corvallis Environmental Center

Corvallis, OR

- Facilitated and guided 8+ varied lessons focused on environmental stewardship, sustainable agriculture, and the significance of ecosystem diversity to local K-5 students.
- Taught workshops highlighting the importance of supporting local agriculture and working with community to find grassroots solutions to environmental issues.
- MCed a summer community concert with 1000+ people in attendance with the goal of raising funds for the continued operation of a community garden and nature education space.

Ambassador

April 2018– June 2020

College of Agricultural Sciences – Oregon State University

Corvallis, OR

- Planned and facilitated weekly events for current and prospective students, reaching average of 20+ prospective students per week
- Promoted educational and career opportunities through the College of Agricultural Sciences.

Event Specialist

September 2019– April 2021

Oregon State University Memorial Union

Corvallis, OR

- Regularly oversaw events with over 100 people in attendance and resolved issues with complicated technology in high stress scenarios.
- Communicated efficiently with both colleagues and clients to accomplish event goals.
- Utilized event and office management software to monitor several events at once.

Community Service

Community Supported Agriculture Volunteer

March – June 2017

Corvallis Environmental Center

Corvallis, OR

- Weeded, planted, and cared for various row crops within a community garden.
- Installed fencing around rows of crops to deter unwanted animals.
- Mulched pathways around sections of the garden.

Volunteer

March – May 2021

Habitat for Humanity ReStore

Salem, OR

- Sorted, organized, and priced items for sale into various categories.
- Processed large donations and categorized them within the facility.
- Broke down and demolished damaged products to be recycled.
